[57] **ABSTRACT**

A dehydrated dumpling is disclosed comprising a dumpling wrapper and a dumpling stuffing enclosed within the dumpling wrapper. The dumpling wrapper comprises a mixture of flour, sweet purple potato (*Ipomoea batatas*), and blue ternate (*Clitoria ternatea*), while the dumpling stuffing comprises sea grapes (*Caulerpa lentillifera*) and Indian oil sardine (*Sardinella longiceps*). The dumpling is provided in a dehydrated state suitable for storage prior to consumption. Various embodiments define compositional ranges for the wrapper and the stuffing while maintaining the fundamental structure of a wrapper enclosing a stuffing.
